Clear Sitka Spruce Strips for Gliders and Light Planes

NOTE: As we cut these strips to order, in any dimensions specified, we have adopted a "unit" system so that you can easily figure the cost per foot of any size you may want. The unit is 1/16" square, thus a piece 1/4"x1" contains 16 units in cross-section; a piece 1"x1" contains 256 units, etc.

STOCK

We endeavor to carry in stock all items for which there is an active demand. If anything you need is omitted from this list, we will consider it a favor to be notified, with a view to adding it to our regular stock. Whether it is listed or not, we can furnish anything you need on short notice, and will quote prices on request.

TERMS

Cash with order, or 50% cash with order and balance C. O. D. "Cash" means Postal or Express Money Order, Cashier's or Certified Check. Please do not send currency or personal checks unless absolutely necessary.

We allow a cash discount for quantity as follows:

\$25.00 to \$50.00 in one shipment, 10% from list prices.

\$50.00 to \$75.00 in one shipment, 15% from list prices.

\$75.00 or more in one shipment, 17 1/2% from list prices.

(To receive discount, cash in full must accompany order.)

PRICES

All prices are F. O. B. Factory. Prices are subject to change without notice.

PACKING CHARGES

Small items which do not require reinforcement for shipping carry no packing charge. Long, slender items, such as tubing, spruce, etc., are subject to a packing charge of 5c for each foot in length of the longest item in the shipment. The prices of all Complete Kits or Installments of Kits include packing charges.

C. O. D.

The collection fee for parcel post C. O. D. is 12 cents; for express C. O. D., 30 cents. If parcel post shipment is desired, estimate the approximate postage and include it with your remittance so as to avoid the 12 cent fee. The 30 cent express fee is for collecting money due on the goods, not the shipping charges; there is no extra fee for "express collect" shipments.

FREIGHT SHIPMENTS

are not recommended unless the shipment is WELL over 100 pounds. If you wish your order shipped by freight, include 75 cents extra with your remittance to cover the cartage charges; if you wish a "C. O. D." freight shipment, include \$1.00 extra to cover the cartage and the sight-draft papers. Also tell us the Bank on which you wish the Sight-Draft drawn.

As all Installments on Kits weigh less than 100 pounds, and freight charges are based on 100 pounds minimum, a single installment by freight generally costs more than it would by express. In addition, express is faster and includes delivery to your address, within certain limits.

FOREIGN ORDERS

Canadian Postal or Express Money Orders are accepted at current exchange in Chicago or New York. Orders from all other foreign countries, including Central and South America, Africa, Egypt, Europe and the Orient, MUST be accompanied by a draft in full on New York or Chicago, payable in American dollars at current exchange; or else they must be placed through a recognized Customs Broker in San Francisco or New York. Due to the slowness of mail and the costliness of cables to foreign countries, foreign customers are requested to observe the above conditions carefully.

We do not make C. O. D. shipments to foreign countries, Canada included.
